# Scotchman®

Art Kroetch  
(1926-2007)

Founder of  
Scotchman Inc.

Scotchman Industries, established in 1967, is family & employee-owned and located in small town South Dakota. Our factory representatives assist dealers worldwide. We are honored to have served the manufacturing industry in America and abroad for over 50 years.

Our company was founded on the principle of providing well-built machinery to help our customers find efficient solutions for their shop needs. We remain committed to building high-quality & dependable USA made products, providing first-class customer service, and have confidence in the strength of American manufacturing.

We believe that building a manufacturing interest among our Nation's youth is vital to the future of American manufacturing and fully support shop class education and trade schools.

When you buy a Scotchman machine, you'll have peace of mind knowing you're supporting an American company who is supporting the community.

# Table of Contents

Scotchman Industries is proud to support Workshops For Warriors®, a non-profit with a mission to train, certify, and help place Veterans, Wounded Warriors, and Transitioning Service Members into advanced manufacturing careers. Scotchman is thankful for all veterans and current USA military personnel and grateful for their service to our country. Let's rebuild American manufacturing together!

IRONWORKERS

## Single & Dual Operator Hydraulic Ironworkers

### American Made with 3-Year Warranty

Backed by the Scotchman reputation of superior quality and dependability, our ironworkers are built tough to last generations. Models range in capacity from 45-150 tons and are available in two distinct styles.

- Our unique Component Tool Table style provides flexibility to swap-out tooling quickly for those quick turnaround jobs. The variety of tooling options available for this style gives it unmatched versatility to any other machine on the market.
- Fully-Integrated Ironworkers feature built-in tools and are suited best for repetitive, higher volume projects.

# Component Tool Style Workstations

## **PUNCH:**

The punch station is one of the most functional standard tools on any ironworker. A full range of punches & dies in standard shapes and increments are available in-stock for your various punching needs, plus tooling can be custom built for your special application. This workstation can also be used for additional applications beyond strictly punching.

## **FLAT BAR SHEAR:**

A flat bar shear is a standard workstation on all ironworkers, but not all bar shears are created equal. All Scotchman ironworkers have a shear with a variable rake angle which minimizes distortion of the cut and increases cut time for a faster shear cycle. From 6" to 24" in width, each Scotchman ironworker is equipped with the best shear for its capacity. Hold-downs are easily adjustable with good visibility, and the reversible shear blades provide a long life of plate shearing.

## **ANGLE SHEAR:**

This useful tool is standard on every Scotchman ironworker. Produces a distortion free cut, and can easily & quickly 45° miter cut.

## **NOTCHER:**

Ideal for notching and nibbling of plate and angle iron. When versatility is key, a copier notcher is essential. Standard workstation on most Scotchman ironworker models, but available as an option on the models it is not standard.

## **TOOL TABLE WORKSTATION FOR COMPONENT TOOLS:**

When versatility and flexibility are key, our unique tool table workstation is indispensable! This tool table design is unique to Scotchman and creates a workstation that is fully customizable allowing an extensive variety of different tooling options to be used and switched out easily, without losing the punch station. This workstation acts as an additional power source which allows users to tailor the machine to their individual needs.

Scotchman has a variety of tooling options available as well as a full-time custom tooling department making the options nearly endless.

<b>Shipping Weight (may vary)</b>	710 lbs. (322 kg)

### STANDARD FEATURES

- 45 ton punch station
- Keyed punch ram for safety
- 2" die holder
- Punch nut with wrench and stripper
- One round punch & die: max. diameter 1"
- Electric remote foot pedal
- Adjustable electric stroke control with scale
- Three-in-one combination tool: Angle shear, Bar shear, and Rod shear
- 14" Tool table work area
- Slug receptacle
- Machine stand with punch & die & tooling storage rack
- 110 volt electrics
- Complies with ANSI B 11.5 safety standards
- Three-year warranty on parts
- Made in USA

# 45 Ton

IRONWORKERS

**It's portable, versatile, and designed for in-plant or on-the-job operation; a perfect choice for the fabricator on-the-go!**

With 45-ton punching capacity, this ironworker can punch 1-1/8" hole through 1/2" mild steel and runs on 110-volt power from your standard wall outlet or generator. A 3-in-1 combination tool comes standard and is located in our unique tool table area. This versatile workstation allows additional tooling to be easily swapped in and out so you can customize the machine to fit your needs.

**3-in-1 combination tool:**

- 3/8" x 6" flat bar shear
- 3/4" rod shear
- 3" x 3" x 5/16" angle shear

<b>Shipping Weight (may vary)</b>	2,984 lbs. (1,354 kg)

### STANDARD FEATURES

- 65 ton punch station
- Keyed punch ram for safety
- Punch gauging table w/fence and scale
- Die holder complete with 2" die insert
- Punch nut with wrench and stripper
- One round punch & die: max. diameter 1-1/4"
- Jog control
- Adjustable electric stroke control with scale
- Electric remote foot pedal
- Flat bar shear with 4-way reversible blade
- Shear table with miter fence
- Angle shear
- 24" Tool table work area
- Slug receptacle
- Two-stage hydraulic pump
- Electrical box supplied with emergency palm button and lock-out tag-out accommodations
- Complies with ANSI B 11.5 safety standards
- Forklift accommodations
- Three-year warranty on parts
- Made in USA

**4 STATIONS**

## 12012-24M

### Capacities and Specifications

Rated On: A36 Mild Steel / 65,000 PSI Tensile

<b>Punching Capacity</b>	120 ton (108 mt) 1-1/2" in 1" (38 mm in 25 mm)
<b>Special Tooling</b>	4" (102 mm) Max. Dia.
<b>Throat Depth</b>	12" (305 mm)
<b>Flat Bar Shear</b>	24" Length (610 mm) 1" x 12" (25 x 305 mm) 3/4" x 20" (19 x 508 mm) 1/2" x 24" (12 x 610 mm)
<b>Angle Shear 90°</b>	6" x 6" x 1/2" (152 x 152 x 12 mm)
<b>Angle Shear 45° w/Tool w/Bar Shear</b>	3" x 3" x 3/8" (76 x 76 x 10 mm) 4" x 4" x 1/2" (102 x 102 x 12 mm)
<b>Brake 12"</b>	83 ton (75 mt)
<b>Brake 24"</b>	65 ton (59 mt)
<b>Open End Brake</b>	Max. 1/4" x 5" (6 x 127 mm) [Flat or Angle Iron]
<b>Pipe Notcher Schedule 40</b>	3/4", 1", 1-1/4", 1-1/2", 2"
<b>Rectangle Notcher</b>	2" x 2-1/2" x 3/8" (51 x 63 x 10 mm)
<b>90° V-Notcher</b>	6" x 6" x 5/16" (152 x 152 x 8 mm)
<b>Channel Shear</b>	2" to 6" adj. (51 mm to 152 mm adj.)
<b>Unistrut Shear</b>	Samples Required
<b>Rod Shear Round (max.)</b>	9 Cavity, 1/4" to 1-1/4" (6 mm to 32 mm)
<b>Rod Shear Square (max.)</b>	1 Cavity, 1/4" to 1" (6 mm to 25 mm)
<b>Square Tube Shear</b>	1/2" to 2" (12 mm to 51 mm) 12 gauge (0.105" / 2.7 mm)
<b>Picket Tool</b>	1/2", 3/4" & 1" (12 mm, 19 mm, 25 mm) 16 gauge (0.06" / 1.5 mm)
<b>Weld Coupon Bender (max.)</b>	2" wide x 3/8" (51 mm x 10 mm)
<b>Offset Die Holder</b>	Max. 40 ton (36 mt)
<b>Strokes per minute in light material</b>	47 spm (1/4" stroke) [Punch Station]
<b>Strokes per minute in heavy material</b>	19 spm (3/4" stroke) [Punch Station]
<b>Hydraulics</b>	2,600 psi (179 bar)
<b>Motor Options (must specify)</b>	5 hp 3 ph (3.73 kW) 208/230/460, 380/575v 5 hp 1 ph (3.73 kW) 220v
<b>Dimensions</b>	L-79" (201 cm) W-32" (81 cm) H-75" (191 cm)
<b>Shipping Weight (may vary)</b>	5,204 lbs. (2,360 kg)

### STANDARD FEATURES

- 120 ton punch station
- Keyed punch ram for safety
- Punch gauging table with fence and scale
- Die holder complete with 2" die insert
- Punch nut with wrench & stripper
- One round punch & die: max. diameter 1-1/4"
- Jog control
- Adjustable electric stroke control with scale
- Electric remote foot pedal
- Angle shear
- Flat bar shear with 4-way reversible blade
- Shear table with miter fence
- 24" Tool table work area
- Slug receptacle
- Two-stage hydraulic pump
- Electrical box supplied with emergency palm button and lock-out tag-out accommodations
- Complies with ANSI B 11.5 safety standards
- Forklift accommodations
- Three-year warranty on parts
- Made in USA

## DO 120/200-24M

IRONWORKERS

**DUAL OPERATOR**  
**5 STATIONS**

### STANDARD FEATURES

- Dual operator allows for two operators to work at the same time at full capacity
- 120 ton punch station
- Keyed punch ram for safety
- Punch gauging table with fence and scale
- Die holder complete with 2" die insert
- Punch nut with wrench & stripper
- Adjustable swing-away stripper
- One round punch & die: max. diameter 1-1/4"
- Jog control
- Two electric remote foot pedals
- Two adjustable electric stroke controls with scale
- Tandem hydraulic pump
- Two valves
- Angle shear
- Rectangle notcher with table, scale and guides
- Flat bar shear with sabre blade
- Shear table with miter fence
- 24" Tool table work area
- Slug receptacles
- Electrical box supplied with emergency palm button and lock-out tag-out accommodations
- Complies with ANSI B 11.5 safety standards
- Forklift accommodations
- Three-year warranty on parts
- Made in USA

## CUSTOMIZED TOOLING FOR A CUSTOM SOLUTION.

### SOMETIMES, A UNIQUE APPLICATION REQUIRES A CUSTOM-BUILT SOLUTION.

If you need something beyond the standard tooling we offer, our team of engineers is equipped to design and build a tailored solution built to your specifications.

From our plant in Philip, South Dakota, each step of this process from design and development to completion is done in-house.

We thoroughly test each tool to verify performance and ensure value for your investment. With quality manufactured into every tool, we assure that our tools will stand up to the tough demands of your applications.

### Examples of Special Applications We've Built Tooling For

Send us your prints & we'll get to work designing a custom tool for your specific needs.

# Production Shear

SHEAR

Roller Conveyor optional

Designed with the high production end-user in mind, this machine combines a large capacity and fast cycle times turning it into a high production shear.

## STANDARD FEATURES

- 24" flat bar shear with 4-way reversible blades
- Shear table with miter fence
- Hydraulic hold-down
- Electric back gauge
- Electric stroke control
- Electric foot pedal
- Two-stage hydraulic pump
- Electrical box supplied with emergency palm button and lock-out tag-out accommodations
- Complies with ANSI B 11.5 safety standards
- Forklift accommodations
- Three-year warranty on parts
- Made in USA

## OPTIONAL EQUIPMENT

- LED Lights
- 10hp, 1ph Motor
- Infeed Conveyor (24" x 5')

## SHEARMASTER 610

### Capacities and Specifications

Rated On: A36 Mild Steel / 65,000 PSI Tensile

<b>Shearing Capacity</b>	1" x 12" (25 x 305 mm) 3/4" x 16" (19 x 406 mm) 1/2" x 24" (12 x 610 mm)
<b>Strokes Per Minute</b>	Full stroke—10, Half stroke—17
<b>Motor Options (must specify)</b>	10 hp (7.46 kW) 3ph, 230/460v 1ph, 220v
<b>Length</b>	49" (124.5 cm)
<b>Width</b>	37-3/4" (96 cm)
<b>Height</b>	70" (178 cm)
<b>Shipping Weight (may vary)</b>	3,065 lbs. (1,390 kg)

# Utility Band Saw

For larger material that requires a band saw, this scaled-down but rugged horizontal band saw can easily cut through round material up to 8" diameter, & features a swing head that can miter 60° right of 90°, giving you a 30° cut part without material movement.

BAND SAW

Optional Conveyor and measuring devices available

## STANDARD FEATURES

- Quick action locking vise
- Miter Capability 60° right of 90°
- Blade trigger switch
- Gravity feed with adjustable down-feed pressure
- Blade tension gauge
- Carbide blade guides with roller supports
- Re-circulating coolant system
- Band door interlocks
- One saw blade
- One gallon coolant
- Meets CE standards
- Three-year warranty on parts
- Made in Spain

## OPTIONAL EQUIPMENT

- Conveyor (10' and 20')
- Manual or digital measuring system (see pages 43-44)

## SU-280 G

### SPECIFICATIONS

<b>Blade Length</b>	1" x 96"
<b>Two Cutting Speeds</b>	131/262 FPM (3 phase machines)
<b>One Cutting Speed</b>	196 FPM (1 phase machines)
<b>Motor Options (must specify)</b>	1.3 hp (1kW) 3ph, 230/460v 1ph, 220v
<b>Width</b>	33-1/2" (85 cm)
<b>Depth</b>	55" (140 cm)
<b>Height</b>	69" (175 cm)
<b>Shipping Weight (may vary)</b>	650 lbs. (295 kg)

### MAXIMUM CAPACITIES

Tubing	90 Degree	45 Degree	60 Degree
<b>Round</b>	8" (203 mm)	7" (178 mm)	4-1/4" (108 mm)

# Cold Saws

COLD SAWS

## Manual to Fully Automatic Circular Cold Saws For Ferrous & Non-Ferrous Materials

A Circular Cold Cut Saw is the best machine for cutting ferrous and non-ferrous metals. For mild steel and other ferrous materials, this unique type of cutting turns the blade at a very low RPM, similar to a milling process, giving a FAST, precise, burr-free cut without heat or sparks.

The Scotchman Cold Saw line is complete with both ferrous and non-ferrous models, manual to fully automatic, and is capable of cutting straight or angled cuts.

Scotchman also offers a complete selection of cold saw blades in stock for immediate delivery. Our in-house blade sharpening service provides high-quality and consistent results with a quick turnaround time.

**Covered Table**

## Automate your saw

Measuring devices available from manual to fully automatic.

(See pages 43-46)

# Hitch Feed Automatic

COLD SAWS

Ideal for high volume and short length applications that require very accurate and clean cuts; this Hitch Feed Automatic (HFA) cold saw is fully automatic and provides uninterrupted cutting on tubing or solids.

## CPO 315 HFA

### STANDARD FEATURES

- Available in ferrous & non-ferrous
- Fully automatic cycle
- Push button controls
- Interlocking safety hood
- Emergency stop button
- Clamping both sides of blade - highest quality, burr-free cuts
- Blade guides for accurate tolerances (ferrous model)
- Mist coolant lubrication system
- Adjustable stroke control
- Adjustable down feed control on the saw head for feed rate
- Length scale in both inches and metric
- Quick and easy fine adjustment of length setting
- 30" single length shuttle
- Three shuttle max
- Piece counter
- One saw blade
- One gallon coolant
- Complies with ANSI B 11.10 safety standards
- Two-year warranty on parts
- Made in USA

### SPECIFICATIONS

Length Tolerance	±0.006" per index
Squareness Tolerance	±0.002" per diameter inch
Minimum Cut Length	1/8" (3 mm)
Maximum Cut Length	Single Index 30" Double Index 60" Triple Index 90"
Motor Options (must specify)	208/230/460v, 3ph
Air Pressure	90 psi
Maximum Diameter Blade	315 mm
Arbor Bore Size	40 mm
Pin Spacing	4/12/64
Length	100" (254 cm)
Width	44" (112 cm)
Height	64" (162.5 cm)
Shipping Weight (may vary)	1,800 lbs. (816.5 kg)

### OPTIONAL EQUIPMENT

- Flood coolant
- Form jaws for multiple tubes
- Digital read-out for quick easy length setting
- Ten-foot or twenty-foot material supply track

### CUTTING SPEEDS

CPO 315 HFA (Ferrous)	Variable Speed 11 to 177 rpm 5 hp (3.73 kW)
CPO 315 HFA NF (Non-Ferrous)	3,000 rpm 5 hp (3.73 kW)

# CPO 350 AutoLoader

The CPO 350 AutoLoader is a fully automatic sawing system guaranteed to save time, eliminate costly mistakes, and deliver consistent results for years to come. Quick set-up, automatic part length change, and the fast reloading of material adds efficiency.

## STANDARD FEATURES

- Available in ferrous and non-ferrous
- Fully automatic cycle or semi-automatic operation
- Pneumatic power down feed with electric controls
- Adjustable stroke control
- Adjustable down feed control on saw head for feed rate
- Air operated material vise clamp
- Clamping on both sides of the blade
- Fixed rear vise
- Double reduction, hardened bronze gears (ferrous model)
- Chip drawer
- Emergency stop button
- Clear awareness barrier with safety interlock switch
- Mist coolant lubrication system
- Material feed direction can be either:  
R → L or L → R (must specify)
- Miter in only one direction (manually)
- Semi-auto operation is standard for cutting miters
- Automatic loading & trim cut of each new bar
- Piece counter
- Touch screen controls
- Windows® based software (Includes profile screen)
- Unlimited job storage
- One saw blade
- One gallon coolant
- Complies with ANSI B 11.10 safety standards
- Two-year warranty on parts (Saw)
- One-year warranty on parts (Feed system)
- Made in USA

## OPTIONAL EQUIPMENT

- Bundle loader magazine (see page 35)
- Flood coolant

## MAXIMUM CAPACITIES

COLD SAWS

# Upcut Miter SUP Series

Large capacity precision mitering upcut saw for aluminum, non-ferrous metals, and plastic cutting. Available in 20" or 24" blade models.

COLD SAWS

## STANDARD FEATURES

- Non-Ferrous saw
- Miter capabilities with fixed stops at 22.5°, 45°, 90°, 135°, and 157.5°
- Safety hood with safety interlock switch
- Power hood (SUP-600 NF model)
- Blade door with safety interlock switch
- Dual palm buttons
- Adjustable feed rate on saw head
- Two horizontal pneumatic clamps
- Two vertical pneumatic clamps
- Capable of slotting
- Moveable back fence for larger capacity
- One gallon coolant
- Mist lubrication system
- One carbide tipped blade
- Air hose
- Chip collection drawer in base and 4-3/4" chip collection port
- Adjustable leveling pads
- Meets CE standards
- Three-year warranty on parts
- Made in Spain

## CUTTING SPEEDS

SUP-500 NF	3,000 rpm 5.5 hp (4.1 kW)
SUP-600 NF	3,000 rpm 5.5 hp (4.1 kW)

# AngleMaster Upcut Miter

## SUP-600 AngleMaster

Large capacity upcut saw for aluminum, plastic, and non-ferrous metals. Combines an automatic mitering ability with a programmable feed.

MAXIMUM CAPACITIES (With a 600 mm Dia Blade)		
	90 Degree	45 Degree
Round	8" (203 mm)	7" (178 mm)
Square	7" (178 mm)	6" (152 mm)
Rectangle	9" x 5" (229 x 127 mm)	7" x 4-3/4" (178 x 121 mm)

SPECIFICATIONS	
	SUP-600
Motor Options (must specify)	230/460v, 3ph
Air Pressure	90 psi
Maximum Diameter Blade	600 mm
Arbor Bore	50 mm
Width	49-1/4" (126 cm)
Depth	54-1/2" (139 cm)
Height (top of the hood)	64-3/8" (164 cm)
Height (floor to table)	38-5/8" (98 cm)

This precision semi-automatic programmable sawing system automatically rotates to cut any angle, pushes material into the saw, then automatically rotates to the next desired angle.

CUTTING SPEEDS	
SUP-600 NF	3,000 rpm 5.5 hp (3.73 kW)

### STANDARD FEATURES

- Non-ferrous saw
- Semi automatic operation
- Mitering degree range 22° to 159°
- Feed length available - 10' to 30'
- Right-to-Left feed only
- Touch screen controls
- Windows® based software (includes profile screen)
- Unlimited job storage
- Powered safety hood with safety interlock switch
- Blade door with safety interlock switch
- Dual palm buttons
- Adjustable feed rate on saw head
- Two horizontal pneumatic clamps
- Two vertical pneumatic clamps
- Capable of slotting
- One gallon coolant
- Mist coolant lubrication system
- One carbide tipped blade
- Air hose
- Chip collection drawer in base and 4-3/4" chip collection port
- Adjustable leveling pads
- Meets CE standards
- Two-year warranty on parts (saw)
- One-year warranty on parts (feed system)
- Saw Made in Spain
- Feed system Made in USA

### Straight Cuts – Miter Cuts – and Everything In-Between

### OPTIONAL FEATURE

- **Auto 90° program** allows machine to run in full auto mode when cutting at 90°.

# Automatic Upcut

Large capacity automatic upcut saw for cutting non-ferrous materials at 90°. Fits almost any profile and is capable of drilling and tapping holes with DT20 option.

COLD SAWS

## GAA-500-90

### MAXIMUM CAPACITIES

(With a 500 mm Dia Blade)

	90 Degree
Round	6" (152 mm)
Square	6" x 6" (152 x 152 mm)
Rectangle	10" x 3" (254 x 76 mm)

### GAA-500-90

CUTTING CAPACITY - Ø500mm (20") BLADE

### STANDARD FEATURES

- Non-ferrous saw
- Shuttle feed design cuts at 90° only
- Automatic or Semi-automatic operation
- Automatic feeder, 20" x 2 strokes (20" + 20" Max. double advance)
- Adjustable length selector from 0.200 to 20"
- LED lighting
- Powered hood lift
- Emergency stop
- Adjustable cutting & feeding speeds
- Three horizontal pneumatic clamps
- Three vertical pneumatic clamps
- One gallon coolant
- Mist coolant lubrication system
- One carbide tipped blade
- Air hose
- Base designed as a chip collection with two extraction ports
- Adjustable leveling pads
- Meets CE standards
- Two-year warranty on parts
- Made in Spain

### SPECIFICATIONS

- Syncon2 lubricant for non-ferrous

# Saw Services & Equipment

## Blade Sharpening Service

Scotchman's in-house blade sharpening service is fast and provides high-quality and consistent results. Our specialist can sharpen any HSS blade, re-tooth a chipped blade, or do a complete gum & sharpen, and will grind your blade to any number of teeth you request.

## Test Cuts/Cycle Times

Scotchman offers Free test cutting of your material and can evaluate your application. Our specialists will provide a full analysis of cycle times, optional RPMs, and offer saw and saw blade recommendation and tooth configuration.

COLD SAWS

## Chip Vacuum

This high-efficiency industrial Vac is ideal for collecting aluminum, dust, chips, and plastic shavings.

### STANDARD FEATURES

- Centrifugal fan with a flow rate of 1471 CFM
- Container capacity 42-gallon
- Structure completely made of steel
- Anti-scuff wheels with parking brake
- Quick release collection container
- Visual filling indicator
- Pneumatic vibrating motor for filter cleaning
- 4.8 hp motor – 230/460v, 3ph, 60Hz
- Two 6" ports
- Five meters of 5" flex tube
- Made in Italy

### OPTIONAL FEATURES

- Remote start control
- Cleaning kit for post-work machine cleaning

## AccuTable Digital Caliper

Easily make critical quality control measurements with the AccuTable from Scotchman®. This high-precision caliper table accurately measures material up to 16-foot-long to  $\pm 0.004$ ". The Windows® Tablet PC effortlessly reads and stores measurements and can be accessed wirelessly over your network. Customized solutions can calculate SPC (Statistical Process Control) information, create graphs, charts, and more – plus, it is American Made.

### STANDARD FEATURES

- Accuracy  $\pm 0.004$ " over 10 ft.
- Repeatability  $\pm 0.0015$ "
- Windows® tablet PC
- Built-in WiFi and USB port
- Inch / metric conversions
- Available in 8, 10, 12, 14, and 16 ft. lengths
- 1-year factory warranty
- 5-year belt warranty
- Made in USA

# Measuring *Manual*

- Enhance Accuracy • Boost Productivity
- Maximize Cutting Efficiency • Improve Safety
- Decrease Set-Up Time • Eliminate Waste

We specialize in high-precision length measuring gauges and turnkey automation solutions for the steel and aluminum industries. Take your operations to a whole new level by adding an automated measuring system to your current machine.

Manual to fully automatic systems available. Talk to our specialists to find the best solution for your needs.

## Scotchman Measuring Devices

Manual Length Positioner .....	43
Digital Length Gauge & Positioner .....	44
Semi-Automatic Stop/Pusher System .....	45
Fully Automatic Material Feed System .....	46
Quality Control Caliper Table .....	42

## Manual Length Positioners

Replace your tape measure with one of our Patented Loc-Stop Systems to increase accuracy and reduce set-up times. The teeth on the rail (1/16" increments) align together with the teeth on the stainless-steel stops to give you the exact measurement you set and are guaranteed not to slip.

Available in left-hand and right-hand models and adaptable to almost ANY type of machinery.

### Quick-Loc Stop System (AMS)

Simply squeeze the handle on the Quick-Loc System, slide it into position, and release it. Your measurement is set and will not slip.

**10" Extension**  
Available for Quick-Loc.

**Vertical Stop Block**  
Available for Multi-Loc.

**Roller Conveyor**  
Available for Quick-Loc & Multi-Loc.  
5' & 10' Increments;  
up to 25 foot lengths.

### Multi-Loc Stop System (AMS)

This system makes setting your production runs faster. Simply press down the stainless-steel stops at various lengths along the rail so you're not changing the set-up each time. Multiple stops can be placed on the rail as close to 1" apart using the Standard Stops, and 1-1/2" apart using the Heavy Duty stops.

Three stops come standard with each Multi-Loc Stop System.

**Multi-Loc Stop System shown on a Scotchman Ironworker.**

MEASURING DEVICES

OPTIONAL

## Digital Length Gauge LG Measuring Device

### Slide & Measure – It’s that simple!

Add digital measuring capability to the angle shear or bar shear on your ironworker so you can measure faster & more precisely without the need for a tape measure and pencil. Just clamp this LG Device to your work station bracket and it displays a digital measurement of any material slid underneath it.

Our LG Measuring Kit comes with one Digital Length Gauge and both an Angle Shear mount & a Bar Shear mount.

On Bar Shear

On Angle Shear

### FEATURES

- Blade Kerf & Angle Compensation
- Quick attach/detach to move from one station to the next

### TECHNICAL SPECS

- Accuracy –  $\pm 0.029''$
- Precision –  $\pm 0.019''$
- Warranty – 1 Year Limited
- Power – 2 AA Batteries  
(not included)

MEASURING  
DEVICES

## Digital Length Positioner Digital Quick Stop

### Simple Go-To Stop

Turn your manual saw into a part cutting workhorse using this entry level digital length gauge that is easy to use and calibrate. The Digital Quick Stop is guaranteed to save time, reduce scrap, and eliminate costly mistakes. Simply key in the desired cut length and press go; the positioner then moves to that desired length. Place your material up against the fence and make your cut.

### FEATURES

- Positioner accuracy  $\pm 0.008''$
- FAST! 17 inches/second
- 7" Android tablet
- Works in inches, fractions, decimals, or metric
- Fraction keys work as the “go” key
- Unlimited preset keys & list storage
- Mounts left  $\rightarrow$  right OR right  $\rightarrow$  left  
(must specify)
- Available in 8' & 12' lengths
- One-year factory warranty
- Made in USA

# Measuring *Semi-Auto*

## SEMI-AUTOMATED Stop/Pusher System

Programmable length stop or material pusher

This programmable measuring system eliminates operator error and is easily programmed to measure length or has the ability to push material to a desired length. Simply enter a part length and the stop will advance to that position quickly and accurately. This Stop/Pusher System can move one length at a time or be programmed with a series of lengths and quantities for faster operation.

### FEATURES

- Positioner accuracy  $\pm 0.008"$
- 17" Screen – Windows® touchscreen technology
- Works in inches, fractions, decimals, or metric
- Fraction keys work as the "go" key
- Unlimited preset keys & list storage
- Supports barcodes
- Multi offset allows for multiple tool positions
- Electronic zero-point calibration
- Multi-lingual
- Steel reinforced belt drive with adjustable drive speed of 1" to 25"/second
- Mounts left → right OR right → left (*must specify*)
- Available in 8' to 30' lengths
- One-year factory warranty
- Made in USA

### STOP/PUSHER FUNCTIONS

- Auto Pusher Mode
- Batch Mode
- Incremental Mode
- Set Point Mode

System is able to be paired with various types of equipment (Shown on our DO95 Ironworker)

# Measuring *Full-Auto*

## FULLY-AUTOMATED Auto Feed System (AFS)

### Fully automatic material feed system

Turn your semi-automatic saw into a fully-automatic production machine. The Advanced Feed System (AFS) will cut production time in half, virtually eliminating set-up time! Now, operators no longer need to use a tape measure or set and adjust manual stops. Pairs with Scotchman's CPO 350 PKPD & SUP series saws.

AUTOMATION

### FEATURES

- System accuracy  $\pm 0.015"$
- 17" Screen – Windows® touchscreen technology
- Intuitive interface
- Works in inches, fractions, decimals, or metric
- Fraction keys work as the “go” key
- Unlimited storage space to save cut jobs
- Able to switch between stop mode & pusher mode
- Capable of miter cutting in semi-auto mode
- Supports barcodes
- Multi offset allows for multiple tool positions
- Downloading of cut lists via built-in wireless networking or through USB drive
- Multi-lingual
- Carriage rides on linear bearing system
- Planetary gear head, near zero backlash
- Mounts left → right OR right → left (*must specify*)
- Available in 8' to 30' lengths
- One-year factory warranty
- Made in USA

### AUTOMATIC SEQUENCES

- Push stock to cut length
- Consider blade kerf
- Clamp the material
- Trigger the cut cycle
- Release the clamp
- Index to the next cut position & repeat!

### AUTO FEED FUNCTIONS

- Auto Pusher Mode
- Batch Mode
- Incremental Mode
- Set Point Mode
- Auto List (Optimizing)

# Pipe Notchers

## Create the Perfect Notch in Seconds!

This line of notching equipment is top-quality, perfect for double corner joints, great for high production, and *always* backed by Scotchman's superior three-year warranty.

Ideal for steel, stainless steel, and non-ferrous tube & pipe construction, hand rails, gates & fences, car frames, roll cages, and more. Each piece is quickly and accurately notched and produces a gap-free fit ready for welding.

The manual and electric notchers are perfect for quick-fit 90° notches. Abrasive grinder/notchers provide the perfect saddle for unique angles on both round and square applications.

## Manual Pipe Notchers

**AL1**

3/4", 1", & 1-1/4"

**AL2**

1-1/2" & 2"

**AL3**

1-1/4" & 1-1/2"

**ALU**

Vent notch; 0.155" max. wall thickness

### FEATURES

- Portable and easy to mount to any stationary surface
- Notch several diameters up to schedule 40 wall thickness at 90°
- Requires no change-over or costly attachments
- Made in the Netherlands

## Electric Pipe Notchers

**AL1-2E**

**AL1-2U**

### FEATURES

- Equipped to notch 3/4", 1", 1-1/4", 1-1/2" and 2" up to schedule 40 wall thickness at 90°
- Safety guards surround and protect notching dies
- Made in the Netherlands

### SPECIFICATIONS

<b>Motor Options (must specify)</b>	3.5hp 230/460v, 3ph
<b>Dimensions</b>	30" x 13-1/2" x 11-1/2" (762mm x 343mm x 292mm)
<b>Shipping Weight (may vary)</b>	AL1-2E: 230 lbs. (104 kg) AL1-2U: 230 lbs. (104 kg)

Equipped with a vent notching die to quickly create a uniform vent-notch in round or square workpieces for galvanizing outflow

PIPE NOTCHERS

# Pipe Notchers

## Abrasive Grinder/Notchers

Constructed with heavy-duty base and frame, Scotchman's Grinder/Notchers operate smoothly with minimal vibrations. Each machine is designed for easy setup with one vise to hold all sizes of tube & pipe that is graduated in degrees and a mandrel with centerline adjustments. Tool-free belt and mandrel changes make transitions quick and easy.

### AL100 SERIES FEATURES

- Notches via adjustments straight = 90° to 30° in tube or pipe from 3/4" to 3" O.D. in seconds (chart pg. 50)
- Comes with two belts and two pipe mandrels (1-1/4" & 1-1/2")
- 13 optional mandrels available to ensure gap free fit
- Top mounted deburring table
- Two axis precision crossfeed table with hand lever feed handle (AL100U-01) or handwheels (AL100U-02)
- Made in the Netherlands

PIPE NOTCHERS

### AL150 SERIES FEATURES

- Notches via adjustments straight = 90° to 20° in tube or pipe from 3/4" to 4-1/2" O.D. in seconds (chart on page 50)
- Two axis precision crossfeed table with both handwheels and hand lever feed handles.
- Comes with two belts and two pipe mandrels (1-1/4" & 1-1/2")
- 17 optional mandrels available to ensure a gap free fit
- Top mounted deburring table (AL150)
- BackHigh speed parts grinder (AL150-HS)
- Base has two built-in racks to store mandrels (AL150-HS)
- Made in the Netherlands

AL150

### High Speed Parts Grinder

AL150-HS

- Ideal for stainless & aluminum
- 40% faster than the AL150
- Less heat, minimal discoloration

# Pipe Notcher *Accessories*

## BACK GAUGE ACCESSORY

For All AL100 and AL150 Models

- Use to set length positions and control depth of notch for repeatable and accurate part lengths.
- 4 ft. working length

## Belts For Abrasive Grinder/Notchers

### Productivity

In most applications, abrasive belt notchers dramatically increase productivity. Unlike conventional grinding wheels, abrasive belts are self-sharpening, continuously exposing fresh cutting points. This means no more dressing or replacing expensive grinding wheels.

$$\text{Productivity} = \frac{\text{belt cost} + \text{labor} + \text{overhead}}{\text{number of parts ground}}$$

### Metal Removal

The rate of metal removal is determined by material to be ground, belt type, belt speed (SFPM) and the amount of pressure applied during grinding.

ABRASIVE GRINDING BELT SPECIFICATIONS			
Length/Grit	Product No.	Packaging	Description
4" x 78-3/4" (100mm x 2,000mm) / 36 GRIT	A044.00001	10 Belts Per Box	Rigid Belt for 3/4" & Larger Diameter
4" x 77-1/2" (100mm x 1,968.5mm) / 36 GRIT	A044.00003	10 Belts Per Box	Flexible Belt for 3/4" & Smaller Diameter
6" x 78-3/4" (150mm x 2,000mm) / 36 GRIT	A044.00002	10 Belts Per Box	Rigid Belt for 3/4" & Larger Diameter
6" x 77-1/2" (150mm x 1,968.5mm) / 36 GRIT	A044.00004	10 Belts Per Box	Flexible Belt for 3/4" & Smaller Diameter

\*Notchers with serial numbers 0001000-0001300, 9701301-9701650 & 9801651-9801700 require 4" x 77" belts

# Hydraulic Presses *PressPro Series*

**PressPro 66**  
66 ton

**PressPro 110**  
110 ton

**PressPro 110W**  
110 ton wide frame

## STANDARD FEATURES

- Heavy duty all-steel construction
- Industrial grade hydraulic system
- Ram moves laterally for added versatility
- 3 Ram speeds
- 15" of vertical ram travel
- Joystick operation with manual jog
- Removable ram cap to accept a wide variety of tooling
- Adjustable H-frame bed/table height offers increased versatility
- Open side-frame design allows for material to pass through
- Set of V-Blocks to simplify your pressing jobs
- Pressure gauge to monitor force
- Hydraulic-assist adjustable work table to maximize operator safety
- Built-in forklift accommodations (*USA built models only*)
- Meets CE standards
- Three-year warranty
- Model 176 & 176MT – Made in the Netherlands
- Models 66, 110, 110W – Made in USA

## STANDARD V-BLOCK SET

Available on PressPro 66, 110, 110W, 176 models  
Standard Accessories: • 2 Steel V-Blocks

## OPTIONAL MANDREL SET

Available on PressPro 66, 110, 110W models

# Hydraulic Presses *PressPro Series*

**PressPro 176**  
176 ton

**PressPro 176MT**  
176 ton with movable frame

- The movable frame feature allows for overhead loading of heavy workpieces
- Easily slide the ram head (side to side) and press frame (forward and back) to access all different points of the work surface.

# Lease-Purchase Financing

## Invest in Yourself

Get the equipment you need to grow your business today.

Scotchman Credit Corp. (SCC) offers Low Payments with Highly Competitive Rates!

**We finance most brands of equipment, NOT just Scotchman!**

### STRAIGHTFORWARD LEASING RATES AND TERMS

- Flexible 1-to-5 year terms with low rates based on purchase price -- *Monthly plans for businesses & yearly plans for schools*
- No hidden fees or early payoff penalty
- One-time \$100 documentation fee
- One advanced payment required for each year of the lease
- All contracts are Lease-To-Own: \$1.00 end-of-lease buyout

### MINIMUM QUALIFICATION REQUIREMENTS

- 2 years in business
- \$4,000 lease minimum
- Leasing not available in Alabama, New Jersey, Nevada, West Virginia, or countries outside of the United States.
